13. What is Cloning?
14. What is Primitive and Non-Primitive Data types?
15. What is seal?
16. What is strict mode?
17. Difference between function and arrow function?
18. What is Promise?
19. What is Generator?
20. Explain Array methods (filter, reduce, include, map, for in loop, forEach,)
21. How many types of Condition in JS?
22. Difference between Import and Require?
23. What is ToSteal?

React JS:

1. Lifecycle in React JS?
2. Difference between Class and function?
3. Difference between dev.dependency and dependency?
4. Difference between package.json and package.lock.json?
5. What is babel and Webpack?
6. What is lifecycle in functional component?
7. Explain useEffect, useState, useContext,useMemo, useRef, ,useReducer, useMemo?
8. What is lifecycle in class component and what is purposes?
9. What is Error boundaries?
10. how to apply style in react js?
11. How to manage the state?
12. Difference between state and props?
13. State is immutable or not?
14. Why React is server side rendering and why is single page application?
15. Difference between DOM and Virtual Dom and explain what is it?
16. Difference between Redux and Redux toolkit?
17. What is Slice, Reducer, Provider, Store?
18. Architecture of Redux?
19. Difference between export and import?
20. What is node module?
21. what is NVM?
22. How many Version in node and react and what you are using?
23. Difference between controlled and uncontrolled component?

24. Difference between setInterval and setTimeout?
25. Difference between map and forEach?
26. What is Portal?
27. Explain HOC?
26. Advantages of React JS?
27. Advantages of Class component and Functional component?
28. Disadvantages of Class component and Functional component?
29. Explain Promise and Generator in Es6?
30. Why we are choosing Redux and Redux toolkit instead of Context API?
31. Folder structure of Redux and Redux Toolkit?
32. Why we are choosing React instead of Angular?
33. What is prop Drilling?
34. Difference between DOM and BOM?
35. What is OOPS in react?
36. What is Cluster?
37. What Is cloning?
38. What is Unit Testing in React and Why we are using that?
39. Difference between Synchronous and Asynchronous?
40. How we write Unit Testing in React JS?
41. List and key in React JS?
42. How to optimize the code in React JS?
43. What are the Rules to follow perfect code in React JS?
44. What is PropTypes?

Common Interview Question:

1. What is web Browser and Web Server?
2. Difference between Client and server side architecture?
3. How many Types of Browser is available, explain Top 10 browser with their benefits?
4. Difference between normal browser mode and Incognito Mode?

Shortcut of Visual Code:
