PROJECTS

1. **Genie MD:**

   Description: A Healthcare based web application that connects patients to doctors. Allows patients to run an assessment, real-time chat, and video call for a consultation. Genie MD is a telemedicine platform that lets you access a doctor from the convenience of your home through a smartphone or computer. Our providers will diagnose your symptoms, prescribe medication, and send any prescriptions to the pharmacy of your choice through a virtual medical visit. Our solution includes access to medical experts, available during extended hours, weekends, and holidays. From the comfort of their home, in just a few minutes, patients can rely on Genie MD to provide expert medical advice on everyday care and disease prevention.
